INTAKE FORM · CHILDREN 0–17 · COMPLETED BY PARENT / GUARDIAN

Pediatric Eye Health History

Children rarely complain about their vision. Your observations about birth, development, school and everyday habits help us find problems such as lazy eye, eye turns and myopia early.

Completed by: Parent / guardian | Use as: Intake form (send via client portal) | Time: 10 min

01 Child & family details

Child's full name | Preferred name | Date of birth | Sex: ○ Female ○ Male

Parent / guardian 1 name | Relationship | Mobile | Email

Parent / guardian 2 name | Relationship | Mobile | Email

Home address | Legal custody: ○ Both parents ○ Parent 1 ○ Parent 2 ○ Other

Paediatrician / family doctor | Phone | School / daycare | Grade / year

Insurance / vision plan | Member ID | Subscriber name & DOB

02 Reason for visit

What brings your child in?

- ☐ Routine / first eye exam
- ☐ Failed school or paediatrician vision screening
- ☐ Eye turns in or out
- ☐ Squinting / closing one eye
- ☐ Head tilt or turn
- ☐ Sits close to TV / holds books close
- ☐ Rubs eyes often
- ☐ Headaches
- ☐ Avoids reading / homework
- ☐ Reading or learning difficulty
- ☐ Red / watery / sticky eyes
- ☐ Light sensitivity
- ☐ Drooping eyelid
- ☐ White or unusual pupil reflex in photos
- ☐ Myopia (short-sight) getting worse
- ☐ Follow-up
- ☐ Other: _____

Describe what you have noticed and when it started

Which eye? ○ Right ○ Left ○ Both ○ Not sure

Urgent signs
Please tell the front desk TODAY if your child has a **white pupil in photos**, a **new eye turn**, **eye injury** or **sudden change in vision** — these need to be seen promptly.

03 Pregnancy & birth history

Born at (weeks of pregnancy) weeks | Birth weight g / lb | Delivery: ○ Vaginal ○ C-section ○ Assisted | NICU stay? ○ No ○ Yes

During pregnancy or birth, were there:

- ☐ Premature birth (<37 weeks)
- ☐ Oxygen therapy after birth
- ☐ Retinopathy of prematurity (ROP) screening / treatment
- ☐ Infection during pregnancy
- ☐ Smoking / alcohol / drugs in pregnancy
- ☐ Low oxygen / difficult delivery
- ☐ Jaundice needing treatment
- ☐ Genetic condition identified
- ☐ Other: _____

04 Development & health

Milestones (sitting, walking, talking)
○ On time ○ Early ○ Delayed

If delayed, which?

Has your child been diagnosed with:

- ☐ ADHD / attention difficulty
- ☐ Autism spectrum
- ☐ Dyslexia / learning difficulty
- ☐ Speech delay
- ☐ Developmental delay
- ☐ Down syndrome
- ☐ Cerebral palsy
- ☐ Seizures / epilepsy
- ☐ Juvenile arthritis (JIA)
- ☐ Diabetes
- ☐ Asthma / eczema / allergies
- ☐ Head injury / concussion
- ☐ Hearing loss
- ☐ Migraine
- ☐ Heart condition
- ☐ Neurofibromatosis
- ☐ Other: _____

Current medications (incl. inhalers, ADHD medication, eye drops)

Allergies (medicines, latex, foods) & reaction

05 Eye history

Previous eye exam?
○ Never ○ Yes

Where / when

Wears glasses?
○ No ○ Yes — full time ○ Yes — part time

Age first prescribed

Past eye treatment

- ☐ Patching
- ☐ Atropine / eye drops for lazy eye
- ☐ Eye exercises / vision therapy
- ☐ Eye muscle surgery
- ☐ Myopia control (drops, lenses, ortho-k)
- ☐ Tear duct probing
- ☐ Other: _____

06 School, reading & visual habits

When reading or doing close work, does your child:

- ☐ Lose their place / skip lines
- ☐ Use a finger to keep place
- ☐ Reverse letters or words
- ☐ Complain words move or blur
- ☐ Cover or close one eye
- ☐ Get tired or avoid reading
- ☐ Have short attention span for close work
- ☐ Complain of headaches after school
- ☐ Have poor handwriting / spacing
- ☐ Re-read the same line

Reading level vs class
○ Above ○ At level ○ Below ○ Not yet reading

Has an IEP / 504 / learning support plan
○ No ○ Yes ○ In progress

Screen time per day (all devices)
hours

Outdoor time per day
hours

Sports / activities

Number of parents who are short-sighted (wear glasses for distance)
○ None ○ One ○ Both ○ Unsure

07 Family eye history

Has anyone in the child's family had:

- ☐ Lazy eye (amblyopia)
- ☐ Eye turn / strabismus
- ☐ Strong glasses as a child
- ☐ Childhood cataract
- ☐ Childhood glaucoma
- ☐ Retinoblastoma / eye cancer
- ☐ Colour blindness
- ☐ Keratoconus
- ☐ Retinal disease / blindness
- ☐ Nystagmus (shaking eyes)
- ☐ Other: _____

Who (e.g. mother, brother)

08 Consent

I am the parent or legal guardian of this child and consent to an age-appropriate eye examination, which may include **eye drops to dilate the pupils and relax focusing (cycloplegia)**. I confirm the information above is accurate.
